**HE WALKED BY NIGHT, 7:00, 10:00**

7/25/75

Truly exceptional! An all-male cast. Richard Basehart plays the psychotic killer mercilessly tracked down by police detectives. Taken (or so the studio claims) from actual police files, the film opens with the brutal murder of a policeman. Location shooting, in the relentlessly realistic tradition of *T-MEN* and *CANON CITY*, is highlighted by the final shoot-out in the LA drainage tunnel system (featured later in *THEM*). A gritty masterpiece! --Errol Morris.

Directed by Alfred Werker. Photographed by John Alton. With Richard Basehart, Scott Brady. (Eagle-Lion, 1948; 79 mins)
