One of Teshigahara's greatest films, *Antonio Gaudi* is joyful, elegant and enchanting. Featuring music by Toru Takemitsu, the film explores the bizarre and whimsical world of the Catalan architect whose extraordinary work in the early part of the 20th century made Barcelona one of the marvels of the world. Drawing inspiration from the Spanish middle ages, Gaudi himself influenced such artists as Picasso, Miro and Dali. Capturing the fantastical shapes and mosaic-encrusted surfaces that erupt in colorful, curvaceous — even erotic — formations, the film culminates with the Temple of Sagrada Familia; Gaudi's shining masterpiece that towers over Barcelona, adorning it like a precious jewel. *Antonio Gaudi* is a must-see film for its rare ability to capture an artist's genius while achieving great artistry in its own right. Japan. 1985. 72 minutes. Color. 1:1.33.
