# **The Angler On The Moon**

**9 min. Color Rental: \$11.00**

This is an imaginative child's fantasy with delicate lyricism and a style reminiscent of water-color technique, by Tibor Csermak. A little boy is swinging in the park when the sun hides, a cold wind rises and blows off the hat of an elderly gentleman. On the swing of his fancy, the little boy pursues the hat into the skies, where the wicked angler on the moon catches his victims. But the little boy rescues the prisoners, evading the moon-angler. They come back to earth, the sun reappears, the wind dies down, the hat returns to the old gentleman's head, and the little boy continues to enjoy himself on the real swing.
