# *America-* *from* **HITLER TO M-X**

created and directed by Joan Harvey

"I have seen **America-From Hitler to M-X** and think that it is saying things that need to be said to the American people, to point the way we have to go to regain some control of our government. And to deal with the present threat to the survival of our species."

**George Wald,**  
*Nobel Laureate, Biology*

"There's been an escalation of violence against the people of the earth. Information is being kept secret in the name of national security, yet our very survival needs the facts in the open. The nuclear issue must be made visible and protested immediately. It is urgent for people to take the time to see **America-From Hitler to M-X** to orient themselves to the magnitude of this issue and what can be done about it."

**Dr. Rosalie Bertell**  
*Grey Nuns of the Sacred Heart*

"This is more than a powerful film. This is more than a warning against nuclear lunacy. This is a rousing call to save world peace and sanity. You can't have one without the other. This film is more than 4-star. It is a *must see*."

**Studs Terkel**

"This is truly a startling political film. The issues for the peoples of the earth are clear and horrifying. It is a crucial plea for peace backed by historical information we have never been told. It weaves the worker dilemma dramatically together with scientific and political reality. I urge you to see **America-From Hitler to M-X** now."

**Ossie Davis**

"I endorse the information given in this forum for life called **America-From Hitler to M-X** for one reason. It is the truth. Let it be heard once and for all!"

**Richie Havens**
