# ANNA

16 mm 55 min. Colour

A documentary on the Taymyr peninsula, Siberia.

A Russian documentary made in 1954 told the story of the native inhabitants of the Taymyr peninsula. The film group visited a boarding school in the village of Novynski and photographed the Nganasan and Dolgan children studying there. One of the Nganasan children was Anna Alexeyevna. A Finnish film group started looking for her, found her and photographed her. What has her life been like?
