talk^{to}her

a film by Almodóvar

Almodóvar's (*All About My Mother*) newest film is a story of friendship between two men, about loneliness and the long convalescence of wounds provoked by passion. Past and present flow together and everything seems touched by magic. Funny, melodramatic and moving, many critics considered this their favorite film of 2002 and the director's best work to date.

SPAIN • 2002 • 112 mins • Color and Black & White • In Spanish with English subtitles
