NORTH BY NORTHWEST

U.S.A. (1959)

Fast, immensely enjoyable Hitchcock tale about an innocent advertising executive (Cary Grant) who becomes involved in an international espionage plot. Witty script by Ernest Lehman and some of the most famous of all Hitchcock's set pieces—an assassination in the United Nations building, an attempted murder on a deserted prairie road, and an exciting chase over the Presidential stone faces of Mount Rushmore. Superbly done all around and in many ways the most entertaining of Hitchcock's movies.
