Zeitgeist

Small print text at the bottom of the poster.

AN THEM

is a captivating cross-country adventure brought to life by two young women, Shainee Gabel and Kristin Hahn, who take to the road to explore a new definition of the American dream. They embark on a journey of once-in-a-lifetime experiences—from an afternoon at the White House to a reckless drive through the back roads of Aspen with Hunter S. Thompson to a conversation with Michael Stipe in a New York City hotel room.
